MEMORANDUM

State Engineer Office
Santa Fe, New Mexico

3-31-83

TO LT Putnam
FROM Deborah Hathaway
SUBJECT T-560, T-490S

653-4088

Declaration T-560 was filed recently for an underground water right from a spring in T16S, R11E, Sec. 11.

Have you field checked this spring? We need a field check to justify the appropriateness of considering this spring to be an underground water right. Is it so small that there would be no surface flow coming from it if not developed & used?

On another matter, yesterday we received a copy of a memo from Larry Nowak to John Nixon stating that a copy of a well record for T-490-S is enclosed, which it wasn't. If you have a copy of this well record please send one to us.
