

SURFICIAL GEOLOGY OF SOUTHEAST NEW MEXICO

by Charles B. Hunt
1977

1:500,000
1 inch equals approximately 8 miles

NOTE: This map is one of four related geologic maps (GM-40, northeast; GM-41, southeast; GM-42, southwest; GM-43, northwest) depicting the surficial geology of the entire state. A separate sheet having a statewide explanation accompanies each map.
