

This geological map of New Mexico displays the distribution of State Trust Lands Ownership across the state. The map is overlaid with a grid of Township (T) and Range (R) coordinates. Major basins and structural features are labeled in red, including the San Juan Basin, San Luis Basin, Raton Basin, Cimarron arch, Las Vegas Basin, Santa Grande uplift, Delmar Basin, Zuni Basin, Zuni uplift, Albuquerque Basin, Espanola Basin, Pedernal uplift, San Augustin Basin, Chupadera, Sim Nombre arch, Roswell dome, Northwest shelf, Delaware Basin, Huebner uplift, Otero platform, and the Four Corners platform. The map also shows the Animas valley and Playas valley in the southwest. A legend in the bottom right corner defines the ownership types: State Subsurface ownership only (brown), State Surface ownership only (green), and State Surface and Subsurface ownership (blue). A scale bar indicates distances up to 100 miles, and a north arrow is located in the bottom left corner. The map is dated 4/2009 by R. Broadhead.

State Trust Lands Ownership

- State Subsurface ownership only
- State Surface ownership only
- State Surface and Subsurface ownership

Contour interval = variable
Datum = sea level

R. Broadhead 4/2009
