Folder 4: Historic aerial and ground-based photographs of lower Chaco Canyon.

Confluence of Chaco Wash and Escavada Wash viewed to northeast in 1979. John Hawley for scale (composite slide by Leo Gabaldon).

Sand dunes and channel of Chaco Wash (left) and Chaco River (right distance). Cliff of Cliff House Sandstone in center (composite slide by Leo Gabaldon from photos taken in 2005).
View southwest across lower Chaco Canyon from gravel-covered benches (1973). Note lighter sandstone ledges below shale notch in cliffs across canyon. Penasco Blanco on skyline on left side of photo.
Chaco Wash at horseshoe bend, lower Chaco Canyon, 2005.
Clayey alluvium and tributary arroyo at horseshoe bend, lower Chaco Canyon, 2005. Edge of sand dunes beyond alluvium in middle distance.
Tributary arroyo, horseshoe bend of Chaco Wash, and edge of sand dunes, lower Chaco Canyon, 2005.
Coppice dunes on top of larger stabilized dunes, lower Chaco Canyon, 2005.
Tamarisks in blowouts, coppice dunes, and other vegetation stabilizing dunes at mouth of lower Chaco Canyon, 2005.
Confluence of Chaco Wash and Escavada Wash to form Chaco River, October, 1979.
Confluence of Chaco Wash and Escavada Wash, September, 1975. Note water is from groundwater discharge.
Sand dunes between Escavada Wash and the horseshoe bend of Chaco Wash, October, 1979)
Horseshoe bend of lower Chaco Wash, and dunes between Escavada Wash and the bend, October, 1979.
Eroded channel of Chaco Wash after a flood in 1975. Note scoured channel and clear groundwater in lower reach of Chaco Canyon near Locality 30 (later designation).
Oblique aerial photo of lower Chaco Canyon, October, 1978. Bend at Locality 30 on lower right.
Oblique aerial photograph of bend of Chaco Wash and dunes at northwest end of Chaco Canyon (October, 1978). Escalada Wash in upper middle distance. Gravel terrace on Cliff House sandstone on lower left.
Dunes and lower Chaco Canyon in August, 1974.
Escavada Wash (lower right), dunes, horseshoe bend of Chaco Wash, lower Chaco Canyon and West Mesa, October, 1978.
