

Rock GeoCross

Across

1. changed rock with heat/pressure
3. how well a mineral reflects light
4. mass divided by volume
6. slope movement
7. wearing away and movement of rock
10. rock preserve remain. of life
11. rock formed from sediments
13. mineral property reflection of light

Down

2. breakage along smooth planes
5. rock type solidified from lava/magma
6. solid w/orderly chemical structure
8. solid mineral material
9. chemical reaction that causes rust
12. resistance to abrasion
