

# Water Planet Day

at the NM Museum of Natural History  
& Science's Kiwanis Learning Garden

Saturday, April 27  
10:00am - Noon

**FREE!**

Celebrate the **WET** side of Earth Day in the Learning Garden with hands-on demonstrations from water organizations around the state.

- learn how groundwater gets polluted
- make a wind turbine
- create a well model
- find out about statewide water monitoring
- read well water depth with a steel tape
- view ways to conserve water
- and more!

The Blue Marble By NASA/Apollo 17 crew; taken by either Harrison Schmitt or Ron Evans

NEW MEXICO  
RURAL WATER  
ASSOCIATION

Sandia  
National  
Laboratories
