

View to southwest of North Anthony's Nose in northern Franklin Mountains. East-facing escarpment of northern Franklin Mountains exposes the El Paso Group (Qp), Montoya Group (Qm), Fusselman Dolomite (Qf), Las Cruces Formation (Mlc) and Rancheria Formation (Pmb), Helms Shale (Mh), La Tuna Formation (Pmb), and Berino Formation (Pmb). Percha Shale is not present at this locality. Plants in foreground are *Tecua torreyi* (photo by W. R. Seager).

Geology of Anthony quadrangle, Doña Ana County, New Mexico by Shari Kelley and J. Paul Matheny, 1983
