

EXPLANATION

- Older river gravels
- Rhyolite
- Andesite
- Fluorspar vein exposed on surface
- Fluorspar vein exposed underground
- Silicified vein
- Breccia
- Gouge
- Fault, showing dip
- Strike of vertical fault
- Fault, showing upthrown side, U and downthrown side, D
- Direction and pitch of striations
- Strike and dip of joint plane
- Underground workings
- Survey station
- Bureau of Mines trench, showing location, length, and assay of sample
- Width of ore
- CaF_2 content of assayed sample
- Estimated CaF_2 content
