

Raman Microscopy Laboratory Open-door event

We are pleased to announce that our new service center is now active in the **Bureau of Geology at NMT**. We invite you to check out our webpage (QR code) and visit us during the open-door event. This lab houses our new confocal Raman microscope, which was supported by an NSF-MRI. Come and learn more!

October 20th 9:30 am to 11:30 am

**New Mexico Bureau of Geology
We are on the 2nd floor in room 230**

New state-of-the-art Horiba LabRAM HR Evolution confocal Raman microscope equipped for solid, gas and liquid experiments.
