

? What San Andres Bypass Surface Equates to the Brushy Canyon Fm. ?

1. Base Lovington ss ?

- Favored by Meissner (1972)
- Indicated on west part WTGS 1991 Cross Section (Hamilton, et al., Pub. 91 -88)
- Suggested by this Poster (Tyrrell, 2009) using Vacuum Field Siesmic section in Pranter, et al. (2004) and Cross Sections V - V' and X - X'

2. "Middle" San Andres Bypass Surface ?

- Favored by Kerans and Fitchen's (1995) Outcrop Study, Guadalupe Mountains
- Favored by Stoudt and Raines' (2000) Vacuum Field Core Study

3. Other or Combination of Bypass Surfaces ?

- ???
