Current Indian Water Rights Negotiations

Santa Cruz/Truchas Stream System

- Ohkay Owingeh
- Santa Clara Pueblo

Middle Rio Grande

- Cochiti Pueblo
- Santo Domingo/Kewa Pueblo
- San Felipe Pueblo
- Santa Ana Pueblo
- Sandia Pueblo
- Isleta Pueblo

San Juan Stream System

- Ute Mountain Ute Tribe

Zuni River Stream System

- Navajo Nation

Implementing Existing Settlements

Taos/Abeyta Settlement Agreement

- Original funding for mutual benefits projects was not indexed
- The shortfall is approximately \$220 million
- With a 75/25 federal/state cost share breakdown, the state share is ~ \$43 million
- Existing appropriations would cover approximately \$10.7 million, leaving a need to fill an additional \$32.3 million in state funding
- Parties are working with Congressional delegation to obtain needed federal funding
- Parties are engaged in securing DOI support for funding request

Aamodt Settlement Agreement

- Construction on water supply project is underway
- Reclamation has alerted parties to likely significant cost increases - parties are working with Reclamation on review of indexing for the project to determine actual amounts
- Updates are likely in the coming months

Navajo San Juan Settlement

- Portion of project is operational, construction on remaining portion is underway
- Parties are working with Congressional delegation to secure passage of act to make needed amendments to authorizing legislation
- OSE/ISC working with City of Gallup on additional groundwater wells to bridge supply gap

Litigation Updates

- Tribal Water Rights - *United States v. Abousleman*
- *Texas v. New Mexico* - Trial on depletion baseline set for June 9, 2025

An aerial photograph of a river valley. A river flows through the center of the valley, surrounded by lush green trees. In the background, steep, rocky mountains rise up. The scene is captured from a high angle, looking down into the valley.

Thank you!
