

Geoscience at the Heart of the High Desert

Attend the 2026 GSA Rocky Mountain Section Meeting for dedicated Geothermal Sessions

The New Mexico Bureau of Geology and the Utah Geological Survey invite you to join us for a dedicated geothermal program featuring a short course, a field trip, and two technical sessions.

- **Short Course:** "Geothermal 101: Systems, Resources, and Characterization"
- **Field Trip:** "New Insights into the Heat Source for the Valles Caldera Geothermal System"
- **Session 1:** Advances in Subsurface Characterization for Energy Exploration and Utilization (covering oil & gas, AGS/EGS, and CCS)
- **Session 2:** The Heat Beneath our Feet: Geologic Controls on Geothermal Resources in the Rocky Mountain Region.

2026 Rocky Mountain Section Meeting

17 - 20 May 2026

Albuquerque, New Mexico, USA

Registration Opens

1 December 2025

Abstract Deadline

24 February 2026,
11:59 p.m. PST
